*Includes an allocation of Ksh. 49.08 million for the DANIDA- Universal Healthcare for Devolved System Programme carried forward from FY 2017/18 meant for Siaya, Marsabit, Nakuru, Uasin Gishu, Isiolo and Kajiado counties to be disbursed in FY 2019/20.

DECRET

MEMORANDUM OF OBJECTS AND REASONS

The principal object of this Bill is to make provision for the allocation of revenue raised nationally among the county governments for the financial year 2019/20.

Section 1 of the Bill provides for the short title while Section 2 defines the various terms used in the Bill.

Section 3 of the Bill contains the objects and the purpose of the Bill which is to provide for the allocation of revenue raised nationally and conditional allocations among county governments for the financial year 2019/20 as well as the transfer of the county allocations from the Consolidated Fund to the respective County Revenue Fund.

Section 4 of the Bill deals with the allocation of equitable share of revenue raised nationally to each county government.

Section 5 of the Bill provides for conditional allocations to be made to county governments.

Section 6 of the Bill provides for the publishing of monthly report by the national government, on actual transfers of all allocations to county governments.

Section 7 of the Bill provides for a county treasury to reflect the total allocations from the national government separately in the County Finance Bill and reflect all transfers in the books of accounts.

Section 8 of the Bill deals with what constitutes a financial misconduct.

Section 9 of the Bill mandates the Cabinet Secretary to make regulations for proper implementation of the Act.

Section 10 of the Bill provides for use of the second determination of the basis of the allocation of revenue among counties as approved by Parliament pursuant to Article 217 (7) of the Constitution

Dated on the.

Cabinet Secretary for the National Treasury and Planning

APPENDIX

EXPLANATORY MEMORANDUM TO THE COUNTY ALLOCATON OF REVENUE BILL, 2019

Background

- 1. This memorandum is prepared in fulfilment of the requirements of Article 218(2) of the Constitution and section 191 of the Public Finance Management Act, 2012, which require that the County Allocation of Revenue Bill tabled in Parliament be accompanied by a memorandum that:
 - (a) explains the revenue allocation as proposed by the Bill;
 - (b) evaluates the Bill against the criteria set out in Article 203(1) of the Constitution;
 - (c) provides a summary of significant deviations from the recommendations of the Commission on Revenue Allocation (CRA) together with the explanation for such deviations;
 - (d) explains the extent, if any, of deviation from the recommendations of the Intergovernmental Budget and Economic Council (IBEC); and
 - (e) explains any assumptions and formulae used in arriving at the respective shares under the County Allocation of Revenue Bill, 2018.

Explanation of Revenue Allocation as Proposed by the Bill

- 2. The County Allocation of Revenue Bill, 2019 proposes to allocate a total of Ksh. 371.6 billion of resources raised nationally to county governments. This is equivalent to 36 percent of most recent audited revenues which have been approved by the National Assembly for the financial year 2014/15 (i.e. Ksh. Ksh. 1,038, billion). This comprises of an equitable share of Ksh. 310 billion or 30 percent of the most recent audited revenue and additional conditional allocations of Ksh. 61.6 billion or 6 percent of the most recent audited revenue.
- 3. The county governments' equitable share of revenue was allocated among the county governments on the second basis of the revenue allocation criteria approved by Parliament in accordance with Article 217 of the Constitution.

The County Allocation of Revenue Bill, 2019

- 4. The Bill proposes to allocate county governments additional conditional allocations amounting to Ksh. 22.9 billion from the national government share of revenue raised nationally in line with Article 202(2) of the Constitution. This reflects a slight decrease of Ksh 2.6 billion compared to 2018/19 financial year allocations occasioned by settlement of arrears attributed to leasing of Medical Equipment for county governments. These allocations are intended to finance national strategic interventions to be implemented by the county governments. Out of the total additional conditional allocations from the revenue raised nationally, Ksh. 16.9 billion will be transferred to the county governments and will be included in the budgets of county governments to be approved by the respective county assemblies. The balance of Ksh. 6.2 billion for the leasing of medical equipment will be included in the National Government budget and shall be managed by the National Government. The additional conditional allocations proposed in the Bill include:
 - Additional Conditional Allocation to facilitate the leasing of medical equipment of Ksh 6.2 billion. This grant which is in its fifth year of implementation, is proposed to decrease from Ksh. 9.4 billion in FY 2018/19 to Ksh. 6.2 billion in FY 2019/20 and is intended to facilitate the purchase and maintenance of modern specialised medical equipment in at least two health facilities in each County Government over the medium term. This will facilitate easy access to specialised health care services and significantly reduce the distance that Kenyans travel in search of such services today. This decrease in budgetary allocation by Ksh. 3.2 billion is attributed to an advanced implementation status of equipping of the specialised Medical Equipment in most of the identified county health facilities as well as settlement of arrears due to non-provision related to contractual obligations of the MES programme in the previous years of its implemementaion.

Additional Conditional allocation for level-5 hospitals of Ksh. 4.3 billion. Level-5 hospitals have continued to play a significant role in providing specialised health care services to Kenyans. These hospitals provide specialised health care services to citizens residing outside their host County, usually for complicated cases referred from lower level health facilities. In order to further compensate them for the costs incurred in rendering services to neighbouring Counties, the national government proposes to allocate Ksh. 4.3 billion in FY 2019/2020.

It should be noted that, in line with the National Government policy to upscale the Universal Health Care (UHC) programme coverage to all county governments; each county government will have health facility/ies of Level-5 Hospital status. Further, most county

governments have so far transformed some of their level 4 health facilities to a Level-5 Hospital status; facilities which are also serving populations outside the resident counties.

In this regard, this additional conditional allocation is transition based, as there maybe need to re-allocate these funds towards UHC once its coverage has been up scaled to all the counties.

- Additional Conditional allocation of Ksh. 900 million to compensate county health facilities for forgone user fees. It is the intention of government to sustain the Government policy of not charging user fees in public health facilities. In this regard, and in furtherance of this policy, the National Government has allocated Ksh. 900 million in the financial year 2019/20 to compensate county governments for revenue forgone by not charging user fees in the county health facilities. This additional conditional allocation is in its fifth year of implementation.
- Additional Conditional Allocation for Rehabilitation of Youth Polytechnics of Ksh. 2 billion: This additional conditional allocation which is in its third year of implementation through the State Department of Vocational and Technical Training, is meant to support county governments in equipping Technical and Vocational Centres and capitation of student fees. The additional conditional allocation aims at enhancing access to quality and relevant vocational skills training.
- Additional Conditional allocation to supplement county allocation for the construction of county headquarters of Ksh. 485 Million in five counties: This conditional allocation is intended to supplement financing for construction of headquarters by five County Governments that did not inherit adequate offices. The five counties are Isiolo; Lamu; Nyandarua; Tana River and Tharaka Nithi. The allocation which is part of a three year plan, beginning financial year 2017/18, to supplement the five counties construct their county headquarters will be shared equally.
- Additional Conditional Allocation from the Road Maintenance Fuel Levy Fund of Ksh. 8.98 billion. This conditional allocation which is in its fifth year of implementation is proposed to increase from an allocation of Ksh. 8.3 billion in financial year 2018/19 to Ksh 8.98 billion in FY 2019/2020. This allocation is meant to enhance and sustain County Governments' capacity to repair and maintain county roads and is equivalent to 15 percent of the Road Maintenance Fuel Levy Fund.

- Transforming Health Systems for Universal Care Project conditional allocation of Ksh. 2.99 billion (World Bank credit): This conditional allocation through the Ministry of Health is meant for continued improvement in delivery, utilization and quality of primary health care services with focus on reproductive, maternal, new-born, child and adolescent health (RMNCAH) at the county level. This additional conditional allocation has reduced to Ksh. 2.99 billion in the financial year 2019/20 from Ksh. 3.6 billion in FY 2018/19 in accordance with the financing agreement between the donor and the National Government.
- National Agricultural and Rural Inclusive Growth Project (NARIGP) of Ksh. 7.2 billion (World Bank credit): This additional conditional allocation, which in FY 2018/19 amounted to Ksh. 1.05 billion is expected to increase to Ksh. 7.2 billion in financial year 2019/20. This additional conditional allocation is meant to compliment efforts by counties to increase agricultural productivity and profitability of targeted rural communities in selected counties, and to provide immediate and effective response in case of crisis or emergency. This increase is attributed to the project design principle of phased implementation approach whereby it includes use of readiness indicators to identify participating counties to be covered by the project each year as contained in the Project Appraisal Document (PAD). In view of this, participating counties have so far increased to maximum targeted 21 counties.
- Kenya Urban Support Program (KUSP) Urban Development Grant (UDG) additional conditional allocation of Ksh. 11.5 billion: The Program Development Objective (PDO) of this additional conditional allocation is to establish and strengthen urban institutions to deliver improved infrastructure and services in participating counties in Kenya. This program, which is in its second year of implementation, is meant to ensure provision of capacity building and institutional support to 47 counties; however, direct financial support will be provided to 45 counties other than the city counties of Nairobi and Mombasa, and to 59 potentially eligible urban areas within those counties.
- Kenya Urban Support Project (KUSP) Urban Infrastructure Grant Allocation (UIG) Ksh. 396 million The main purpose of this programme, which is in its third year of implementation, is to provide support to participating County Governments for the formulation of urban development plans including the establishment and operation of urban institutional arrangements such as charters, boards, administrations and operation of Urban Institutional arrangements and for the initial preparation of urban infrastructure investments. This grant will decrease from an allocation of Ksh. 1,854 million in financial year 2018/19 to Ksh. 396 million in financial year 2019/20 because the allocation in

financial year 2018/19 included a balance of Ksh. 927 million carried forward from the financial year 2017/18.

- Kenya Devolution Support Program (KDSP) County Capacity Building ("level 1") Grant of Ksh. 1.4 billion. This is a conditional grant, which is in its third year of implementation, financed by a World Bank credit to support county government's capacity building. This grant, which has been reduced from an allocation of Ksh. 2.3 billion in financial year 2018/19 to Ksh. 1.4 billion in financial year 2019/20, is intended to sustain the support to capacity building initiatives in the counties in the following areas:
 - a) Strengthening Public Financial Management (PFM) systems;
 - b) Strengthening County Human Resource Management;
 - c) Improving county planning and Monitoring & Evaluation systems;
 - d) Civic Education and Public Participation; and,
 - e) Strengthening Intergovernmental relations.
- Kenya Devolution Support Program (KDSP) Performance ("level 2") Grant amounting to Ksh. 4.9 billion. KDSP "Level 2", financed by a World Bank credit, is a performance grant which will be utilized by beneficiary counties toward physical investments articulated in their respective County Integrated Development Plans (CIDPs) As such, this grant is intended to incentivize county governments that achieve good results in the following key areas:
 - a) Strengthening Public Financial Management (PFM) systems;
 - b) Strengthening County Human Resource Management;
 - c) Improving county planning and Monitoring & Evaluation systems;
 - d) Civic Education and Public Participation; and,
 - e) Strengthening Intergovernmental relations.

Performance of counties in the above areas is to be assessed by an independent firm to be recruited through a competitive process. The budget allocation for this grant, which is in its third year of implementation, has increased from Ksh. 4 billion in financial 2018/19 to Ksh. 4.9 billion in financial year 2019/20 to cater for increased number of counties who will have met the performance score after being assessed in accordance with Section 5 (2) (j) of the County Allocation of Revenue Act, 2019.

• EU-Instruments for Devolution Advice and Support (IDEAS) grant of Ksh. 492.7 million: This grant, which is in its third year of implementation, is expected to decrease from Ksh.1.04 billion in financial year 2018/19 to Ksh. 492.7 million in financial year 2019/20. The allocation is meant for disbursement of the 2nd tranche of the grant to facilitate implementation of projects identified in financial year 2018/19 for the achievement of Local Economic Development (LED) in the county respective contracts.

- IDA Water and Sanitation Development Project (WSDP) World Bank Credit of Ksh. 3.5 billion: The Project Development Objective (PDO) of this program, financed by this additional conditional allocation, is to improve water supply and sanitation services in six select counties located in the coastal and north eastern regions of Kenya. This will be achieved by investing in water supply and sanitation infrastructure in urban centers in these counties. This additional conditional allocation, which has been reduced slightly from Ksh. 3.8 billion in financial 2018/19 to Ksh. 3.5 billion in financial year 2019/20, is meant to facilitate continued implementation of the projects started in 2018/19.
- Agricultural Sector Development Support Programme (ASDSP) II- Ksh. 849.6 million-

ASDSP II, which is in its second year of implementation, is part of the implementation strategy of the Agricultural Policy (AP) for the national and county governments. In line with the AP, the overall goal of ASDSP II is to contribute to "transformation of crop, livestock and fishery production into commercially oriented enterprises that ensure sustainable food and nutrition security". The Programme Purpose is "to Develop Sustainable Priority Value Chains (PVCs) for improved income, food and nutrition security", which will contribute to achievement of the "BIG FOUR" agenda of the Government.

• EU- Water Tower Protection and Climate Change Mitigation and Adaptation Programme (WaTER) - Ksh. 495 million: -The purpose of this additional allocation, which is in its second year of implementation, is to facilitate the implementation of the national climate change action plan and the master plan for the conservation of water catchment areas of Cherangany Hills and Mount Elgon.

The program is being implemented in Cherangany Hills and Mount Elgon ecosystems and includes Lake Victoria and Turkana basins. It is also addressing a number of cross-cutting issues like climate change, gender equality, good governance and human rights and will benefit the eleven Counties of Bungoma, Busia, Elgeyo Marakwet, Kakamega, Kisumu, Nandi, Siaya, Trans Nzoia, Uasin Gishu, Vihiga and West Pokot.

• Drought Resilience Programme in Northern Kenya (DRPNK) - Ksh. 350 million- This is a project financed by proceeds of a loan and grant from the German Development Bank in Turkana and Marsabit counties. The programme objective is defined as follows: "to ensure that Drought resilience and climate change adaptive capacities of the pastoral and

agro-pastoral production systems and livelihoods in selected areas of Turkana and Marsabit County are strengthened on a sustainable basis by expanding and rehabilitating relevant infrastructure." The expected projects outputs are to ensure: - access to water is improved for humans and livestock; fodder basis is improved; access to market infrastructure is improved; and rural transportation is improved in the two counties.

Evaluation of the Bill against Article 203(1) of the Constitution

- 5. Developmental needs of county governments and their ability to perform the functions assigned to them: The Bill proposes to allocate equitable share of revenue among county governments on the second basis of the formula for sharing revenue approved by Parliament in accordance with Article 217 of the Constitution. The formula uses parameters that proxy demand for services and therefore expenditure needs of county governments. These parameters include: development factor (1%), population (45%), land area (8%), and poverty (18%). The proposed equitable share of revenue for county governments of Ksh. 310 billion in financial year 2019/20 reflects an increase of Ksh.5.04 billion compared to the revised allocation of Ksh. 304.96 billion in 2018/19. This means that there will be more resources in the financial year 2019/20 to meet the developmental needs of counties.
- 6. Economic disparities among counties as well as disadvantaged areas and groups within counties: The allocation of the sharable revenue among counties was based on the formula for sharing revenue among counties approved by Parliament in accordance with Article 217 of the Constitution, which takes into account disparities among counties and aims at equitable distribution of resources. The formula takes into account population (45%), land area (8%), poverty (18%), a basic equal share (26%), fiscal responsibility (2%) and Development factor (1%). It should also be noted that Ksh. 5.76 billion has also been set aside for the Equalization Fund in 2019/20 which translates to 0.6 per cent of last audited revenue accounts of governments and is above the minimum constitutional requirement of 0.5 percent. This Fund will be used to finance development programmes that aim to reduce regional disparities among counties. County Governments are also expected to come up with programs to redress inequalities within counties. In addition, County Governments are expected to adhere to the requirement under the Public Procurement and Assets Disposal Act of 2015, to reserve 30% of the public procurements in the counties for disadvantaged groups within the counties, comprising of women, youth and persons living with disabilities.
- 7. **Stability and Predictability of County Revenue Allocations:** The Division of Revenue Bill, 2019 has proposed that county governments' equitable share of revenue raised nationally be ring-fenced. Accordingly, clause 5 of the DoRB 2019, provides that any shortfall in revenue

The County Allocation of Revenue Bill, 2019

raised nationally is to be borne by the National Government, to the extent of the threshold to be determined by Cabinet.

8. Fiscal capacity and efficiency: Fiscal capacity for county governments refers to the potential revenues that can be generated from the tax bases assigned to the counties when a standard average level of effort is applied. The second generation formula developed by the Commission on Revenue Allocation for sharing equitable share of Revenue has provided for 2 % weight to fiscal responsibility parameter. This measure is intended to take into account variations in fiscal capacity and efficiency across counties in the sharing of revenue raised nationally.

Evaluation of Deviations from the recommendations of the Commission on Revenue Allocation

- 9. The Division of Revenue Bill, 2019 proposes to allocate county governments an equitable share of KSh. 310 billion from the shareable revenue raised nationally. The CRA, on the other hand, recommends that KSh. 335.7 billion be allocated to County Governments as their equitable share in FY 2019/20. Further, CRA recommends that distribution of this allocation among the county governments be based on the draft third basis for revenue sharing. The difference in the Commission on Revenue Allocation (CRA) recommendation and the DoRB 2019 proposal emanates from the different approaches used to compute the County Governments' equitable share of revenue. These include;
 - a. Use of different base for equitable share of revenue: CRA has used a base equitable share of Ksh. 314 billion as contained in the Division of Revenue Act, 2018. However, the National Treasury has -- in the Budget Review and Outlook Paper (BROP), 2018 -- adjusted this base by the proposed Ksh. 9.04 billion reduction of the equitable revenue share for county governments in FY 2018/19. This adjustment is informed by shortfalls in performance of revenue raised nationally since the financial year 2015/16.
 - b. Use of different revenue adjustment factor: CRA adjusts the county equitable share (using a base of Ksh 314 billion) of revenue using the actual three-year average annual inflation of 6.9 %. The National Treasury has increased by Ksh. 5.04 billion to the revised base of equitable share of revenue to county governments in financial 2018/19 of Ksh. 304.96 billion. This increase of Ksh. 5.04 billion is informed by the provisions of fiscal framework that underpins the Budget Policy Statement for FY 2019/20, which reflects a decline in fiscal deficits from 5.9 percent of GDP in FY 2018/19 to 5.0 percent in FY 2019/20, increase in debt service costs, drop in National Government ministerial expenditures and downward adjustment of revenue projections in light of shortfalls in revenue in FY 2018/19.

10. The Table below analyses differences between the CRA recommendations and the National Treasury proposal on the division of revenue between the national and county governments in 2019/20.

- 11. Differences occasioned by additional conditional allocations financed from national government share of revenue amounting to Ksh. 12.5 billion; CRA has proposed additional conditional allocations of Ksh. 26.7 billion (excluding ksh. 8,984 million for RMLF which is not financed from ordinary Revenue) whereas National Treasury proposes Ksh. 13.9 billion to be financed from national government share of revenue. This has occasioned a difference of Ksh. 12.8 billion as a result of the following:
 - Free Maternal Healthcare: CRA has proposed Ksh. 4,300 million additional conditional allocation for transfer to county governments to finance free maternal healthcare. The National Treasury and Planning has not provided this allocation as a conditional transfer to county governments of Ksh. 4,300 million. However, in the Schedule of this Bill, the National Government share of revenue includes Ksh. 4,300 million which is a special grant to the National Health Insurance Fund (NHIF) for free Maternal health care, to be disbursed as a reimbursement to county governments.
 - Leasing of Medical Equipment: CRA has proposed an allocation of Ksh. 9,400 million for this additional conditional allocation whereas the National Treasury and Planning has proposed an allocation of Ksh. 6,200 million for the same. Although the National Treasury and Planning had allocated Ksh. 9,400 million for this additional conditional allocation in FY 2018/19, it should be noted that the additional Ksh. 3,200 million was meant to clear pending bills attributed to leasing of medical equipment, bills which have since then been

The County Allocation of Revenue Bill, 2019

cleared. This has informed the proposal to allocate Ksh. 6,200 million in financial year 2019/20 for leasing of the medical equipment.

• New conditional transfer for financing of five (5) cities: - CRA has proposed an allocation of Ksh. 5,000 million starting FY 2019/20 to finance five cities (Nairobi, Mombasa, Kisumu, Nakuru and Eldoret). These cities are centres of growth and provide unique and critical services to the residents.

The National treasury takes cognisant of the unique services such as sewerage system, water reticulation, solid waste disposal and storm water drainage and management provided by these cities.

To support these centres of growth, the National Treasury and Planning has in FY 2019/20 provided a Ksh. 11.5 billion for Kenya Urban Support Program (KUSP) as an Urban Development Grant (UDG) financed form proceeds of a grant by the World Bank. The purpose of this grant, which will complement efforts of county governments in carrying this function, is to establish and strengthen urban institutions to deliver improved infrastructure and services in participating counties in Kenya. It should be noted that these services are part of the devolved functions and county governments should be encouraged to plan and budget for them. In light of the tight fiscal framework, the National Treasury may not be able to provide additional resources beyond what has been provided.

- 12. Finally, the National Treasury has proposed an allocation amounting to Ksh. 38.7 billion as additional conditional allocations from proceeds of loans and grants by various development partners to finance respective programs and projects in the financial year 2019/20. However, the CRA has not made such provisions in their additional conditional allocations proposal.
- 13. Despite the differences between the proposals set out in the County Allocation of Revenue Bill, 2019 and the CRA's recommendations, the proposed county governments' equitable share of revenue in the Bill, at 30 percent of the most recent audited revenue, as approved by the National Assembly, is way above the minimum threshold required under Article 203(2) of the Constitution. In addition, the National Treasury and Planning proposes to provide conditional allocations of Ksh. 52.6 billion which further increases the allocations to county governments to 36 percent of the most recent audited revenue.
