## PREFACE

This report is the outcome of the Constitution of Kenya review activities at the constituency level. Its production is a requirement under section 26(2) of the Constitution of Kenya Review Act (Cap 3A), which mandates the Commission to compile reports of the Constituency Constitutional Forum (CCF). The Act identifies the CCF as one of the principle organs of the Constitution of Kenya review process (sec. 4(1)(b)). Section 5 of the Act notes as one of the guiding principles of the review process, that the organs shall provide the people of Kenya with an opportunity to actively, freely and meaningfully participate in generating and debating the proposals to alter the Constitution. That the organs shall ensure that the final outcome of the review process faithfully reflects the wishes of the people of Kenya.

The Constitution of Kenya Review Commission (CKRC) in an effort to realize the objectives of the review, held hearings in all the constituencies in Kenya during which all Kenyans were given an opportunity to present their proposals for the alteration of the Kenyan Constitution. In its guidelines for the formation of the CCF's (pursuant to sec. 20 of the review Act), CKRC indicated that all the constituents were deemed as members of the CCF. In order to coordinate and facilitate the activities of the CCF, Constituency Constitutional Committees (CCC) were established. The guidelines proposed its membership to consist of 10 persons, of which three would be ex-officio: the local MP, the chair of the County Council in which the constituency is located, and the District Coordinator. The guidelines stated that the membership would be as broad and representative of the people of the constituency as possible and recommended that at least a third of the committee should be women.

This report therefore summarizes the views collected in the constituency, in five broad chapters. A brief background of the district in which the constituency is situated is presented in the first chapter followed by a similar background for the constituency, in the second chapter. The philosophy and organs of the review process at the constituency level are presented in chapter three while chapter four outlines civic education activities. The logistics of constituency public hearings and the proposals made by the constituents are presented in chapter five. The recommendations were collated according to the list of *issues and questions*, which was issued by CKRC at the commencement of the public hearings. However, the twenty-two areas of concern identified in the *issues and questions* for public hearings mainly covered constitutional issues. Additional twenty-one categories of issues covering policy and other issues were added so as to ensure that all the concerns and recommendations made by the constituents were collated and used in the review process and also reflected in the CCF report.

The Commission trusts that this report fully reflects the views of the people of the constituency.

### **3. CONSTITUTION MAKING/REVIEW PROCESS**

#### **3.1. Constituency Constitutional Forums (CCFs)**

##### **3.1.1.Philosophy**

The Constituency Constitutional Forum (CCF) plays a very significant role in the review of the constitution. It is designated as one of the organs ' through which the review process shall be conducted' - (sec. 4(1) of the Constitution of Kenya Review Act, Cap.3A). The importance attached to the CCF arises from the recognition of the need to involve the people fully in the review of the constitution. Only through such participation of the public will the new constitution reflect the preferences, hopes and aspirations of the people. It would also increase people's knowledge of constitutional issues, and facilitate their familiarity with the provisions of the new constitution. Additionally, the process, enhances the legitimacy of the constitution among Kenyans and their sense of ownership over it. In these ways the proper implementation and safeguarding of the constitution will be facilitated.

##### **3.1.2.Composition and Establishment**

The 1997 Review Act had provided for district forums 'to mobilize communities at the local level for the purpose of civic education in preparation for the Commission's work and to perform such other duties as the Commission may assign' - (sec. 12A (6)). The District Forums were to consist of members elected to represent locations, religious organizations, and the disabled, in addition to MPs and members of every local authority in the district. The Act contained several provisions prescribing minimum qualifications for membership and regulating the operations of the District Forums.

The Select Committee of the National Assembly, which reviewed the Act in early 2000, decided to replace the District Forums with Constituency Forums to get views ' directly from the people in the constituency without necessarily going through the rigours of an election to determine the members of the forum'. It thought that this would provide for a more popular form of participation. It recommended on the simplification of the forum to avoid elections. The Select Committee envisaged the constituency forum as an 'open forum with no specific structures', which should be ' flexible and easy to manage'. Its opinion was that the 'existing leadership comprising Members of Parliament, councilors, community based organizations, religious groups and individuals should be able to present views and opinions directly from the grassroots' ( *The Report of the Parliamentary Select Committee Reviewing the Constitution of Kenya Review Act, 1997*, April 2000). It removed the regulatory powers of the Commission over the forum, its role being confined to the 'facilitation' of the forum. It also changed the function of the forum from the facilitation of civic

education to also include facilitation and the collection of the views of the public on proposals to alter the constitution.

In view of the limited role of the CKRC in the establishment of the CCF's, the CKRC prepared and gazetted Guidelines for the operationalization of the constituency constitutional forums. The Guidelines stipulated that all the residents of a constituency would constitute the CCF. The CCF is described as one of the organs ' through which the review process shall be conducted' - (sec.4(1)). The CCF was thus one of the principal ways in which the views of the public were to be obtained.

In order to coordinate and facilitate the activities of the CCF, a Constituency Constitutional Committee (CCC) was to be established. The Guidelines proposed its membership to consist of 10 persons, of which three would be ex-officio: the local MP, the chair of the County Council in which the constituency is located, and the District Coordinator. The Guidelines stated that the membership would be as broad and representative of the people of the constituency as possible and recommended that at least a third of the committee should be women.

### **3.1.3.Functions of CCF**

- Facilitation of collection of the views of the public at the constituency level on proposals to alter the constitution; and
- Debate and discussion of the views of the members of the public on proposals to alter the constitution.

In performance of these functions, the CKRC was required to visit all constituencies (Sec.18 (1)(a)).

### **3.1.4.Functions of CCC**

- The functions of the CCC were mainly facilitative and advisory, the primary aim being to enhance the effective participation in the ownership of the constitution review process by the people at the constituency level;
- The CCC was also mandated to promote, facilitate and monitor civic education at the constituency level in collaboration with the District Coordinator and civic education providers;
- Additionally, the CCC had to ensure that the constituency had access to all information relevant to the review process in coordination with District Documentation centers; and
- Finally, the CCC was also mandated with the task of dissemination of the report of the CKRC. It was to be assisted in this by the District Coordinator, who was also its accounting officer, in relation to funds that were made available to it by CKRC.

It is important to emphasize that the Guidelines were advisory, and the local community was free to modify them to suit local circumstances. For example, the size of the CCC could be increased when and if adequate representation and diversity required it.

### **3.1.5.Date of Commencement of Work**

The Constituency Constitutional Forum (CCF) was to run for an initial period commencing November 2001 up to September 2002. Accordingly, each Constituency Constitutional Committee (CCC) should have been constituted at the very latest by the end of November 2001. The Constituency Constitutional Forum was to be operational by that time.
